Expectations for Writing Assignments: Writing Style

To meet the academic rigor and standards of a graduate program, all students are required to use the Publication Manual of the American Psychological Association (APA) 7th Edition style in their courses when appropriate for the assignment. The APA 7th Edition Manual has a plethora of guidelines that includes scholarly writing, publishing principles, elements, and format for your papers, writing style, and grammar, bias-free language guidelines, mechanics of style, in-text citing references, etc. For additional information on notable changes, see changes between APA 6th Edition and APA 7th Edition.

See course assignments for more detail on writing for the larger course assignments.

Class Demeanor

In our online live meetings that you attend please silence your cell phones, and any sounds coming from your computer. Please try and limit background noise when possible. If you cannot avoid background noise where you are (e.g., a young child you are caring for; or an annoying sibling/friend in your study space) please keep yourself muted except when you need to talk.

When possible, please try to keep your video on as it leads to a better online class environment.

The instructor reserves the right to put you on mute if too much noise is coming from your computer or if any non-class-appropriate material is shown on screen.

Please act respectful of other students' views or opinions as you would in an in-person class. This is also the case for when posting on discussion boards or any interactions with other students in the course.

If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who unmute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. Please let the instructor know if these situations apply to you.

[Click here to read the university attendance policies](#) for information on absences, religious holidays, illness, and the twelve-day rule. Course Policies

Video Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under [UF Regulation 4.040 Student Honor Code and Student Conduct Code](#).

Privacy

If your course includes live synchronous meetings, the class sessions will all be recorded for students in the class to refer to and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your

profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who unmute during class and participate are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. Please see UF's Information Technology [policies](#) for additional information.

Challenging Topics

In this course, we may cover subjects that may be sensitive and/or challenging. As in all our courses, we do this not to indoctrinate but to instruct, to prepare you to be the most effective and successful media professional or scholar that you can be. We encourage you to understand all concepts presented in class, but we know that what you personally believe is your choice. If you would like to discuss anything regarding this, please feel free to contact me directly.

Commitment to Diversity

The College of Journalism and Communications embraces diversity as a shared responsibility among faculty, staff, and students and strives for tangible expressions of this responsibility. We are committed to fostering a safe, welcoming, and inclusive environment for individuals of all races, genders, nationalities, religions, sexual orientations, identities, and abilities to express their culture and perspectives through the art and science of journalism and communication.
