Assignment Descriptions

Content Quizzes (10 Assignments, 15 points per assignment):

The 10 quizzes assigned throughout the course will refer back to the content being discussed in class at that particular time. Questions from prior topics discussed may appear as extra credit opportunities.

Individual Projects (10 Assignments, 15 points per assignment):

Throughout the course, students will be required to complete 10 individual projects regarding the content being discussed. These projects will help build the necessary skills required for the Franchise Re-Brand Project and Final Exam Group Project. (e.g. students will be asked to design a new logo for a professional athlete).

Networking Reports (10 Assignments, 15 points per assignment):

The effects of brand association are prevalent throughout sports – whether on the athlete, team, or league level. Therefore, students will be required to interview professionals within the industry (e.g. design, partnerships, PR, etc.) and report back with what they have learned. Each student will be required to complete 10 reports. Subjects of reports may not be repeated for the purposes of this course. These reports are meant to demonstrate the power of personal branding on the business side of sports, as well as to provide students with a live network they can tap into after graduation.

Online Discussions (10 Assignments, 15 points per assignment):

Students will be required to submit an original post and respond to at least one classmate per online discussion in the course's online forum regarding the content being discussed each week. Answers must be original and substantial to count for full credit. Failure to post or copied answers will result in a ZERO-point grade. Posts can partially serve to respond to another student's post but must also contain new and unique ideas, takes, and examples not previously used by another student.

Franchise Re-Brand Project (100 points):

Students will be asked to analyze a professional sports franchise, explore its strengths, weaknesses, fan base, and the overall temperature of the brand. They will then have to provide a proposal for a re-brand of the organization. This will include a new logo, a secondary logo, new uniforms (home & away), potential corporate partners to target, etc. Projects will be turned in with a corporate pitch format, as though these proposals are being heard by the Presidents & CEOs themselves.

Group Bowl Game Project (200 points):

Students will be assigned their groups to present a final exam project at the end of the semester. And an overview of each group member's responsibilities will be required. Each group will be tasked with conceiving and developing the branding for a college football bowl game. Groups will be required to design a logo, create assets for social media and general promotion, create a full corporate sponsorships plan, and explain how they plan to build and develop the audience for this new bowl game to generate viewership and ultimately establish brand equity.

Attendance (100 points):

Attendance is mandatory. Any unexcused absence will result in a proportional deduction of points.

Grading

Grades will be rounded up or down to the nearest whole number for grading purposes.
