Assignment Descriptions

Content Quizzes (10 Assignments, 15 points per assignment):

The 10 quizzes assigned throughout the course will refer back to the content being discussed in class at that particular time. Questions from prior topics discussed may appear as extra credit opportunities.

Individual Projects (10 Assignments, 15 points per assignment):

Throughout the course, students will be required to complete 10 individual projects regarding the content being discussed. These projects will help build the necessary skills required for the Franchise Re-Brand Project and Final Exam Group Project. (e.g. students will be asked to design a new logo for a professional athlete).

In-Class Group Projects (10 Assignments, 15 points per assignment):

Students will be given ample time in class to break off into groups and complete varying projects related to the course material from that specific module. Full group participation is required. Failure to attend class will result in an automatic zero for the project. If a valid doctor's note is provided to excuse the absence, the student may complete the assignment individually and submit it via Canvas.

Online Discussions (10 Assignments, 15 points per assignment):

Students will be required to submit an original post and respond to at least one classmate per online discussion in the course's online forum regarding the content being discussed each week. Answers must be original and substantial to count for full credit. Failure to post or copied answers will result in a ZERO-point grade. Posts can partially serve to respond to another student's post but must also contain new and unique ideas, takes, and examples not previously used by another student.

Individual Brand Project (200 points):

Students will be assigned small business for which they will have to conduct a brand audit, generate visual concepts and displays of ideation, demonstrate art direction and discovery process, and present a full rebrand proposal for the company. The proposal will include brand elements and their applications, color palettes, typography, examples of product integration, examples of projected campaigns, and a media toolkit for corporate partners.

Assignment Descriptions (contd.)

Group Final Exam Project (200 points):

Students will be assigned groups and will be given a prompt to build a brand for a hypothetical new business looking to launch and build its audience. Groups will tag-team responsibilities and present a full proposal for a brand identity, visual identity, a media toolkit, and examples of mock-ups for product integration and campaigns to launch the brand.

Attendance (200 points):

Attendance is mandatory. Any unexcused absence will result in a proportional deduction of points.

Non-Profit Foundation Brand Project (800 points):

Students will be tasked with generating an idea for a new 501(c)(3) non-profit organization for an imaginary client. Students will need to focus on the ideation process in order to generate a full brand identity, visual identity and brand standards, a fully functioning website, and two (2) pitch decks for both "B2B" and "B2C" purposes to drive donations for the foundation. Students will also need to showcase plans for two (2) event-based campaigns: one (1) field-based event within the community and one (1) large-scale gala/benefit to help drive donations for the foundation.

Grading

Grades will be rounded up or down to the nearest whole number for grading purposes.
